

Health Care Reform & You: GABC Explains the Impact

Wondering how the new health care reform legislation will affect you?

For the average consumer the impact will be gradual. Within six months of enactment only certain provisions of the law will be phased in, including:

- Elimination of lifetime maximum benefit payments
- Coverage for dependent children to the age of 26
- Elimination of pre-existing condition exclusions for children to age 19 (Adult pre-existing waiver becomes effective in 2014)
- Increased wellness/preventive care

For GABC participants, the impact will be even less since some of the changes have already been incorporated into existing plan benefits. As other adjustments are added, participants will be informed. Call the GABC office if you have specific questions.

So Relax & Stay Well. With GABC your coverage is always on target.
